

## Tru-Lok® Measuring Tapes

Industrial Quality Tape Measures with heavy-duty blades as standard...this is the basic measuring tape style used by professionals and homeowners throughout the world. They are named Tru-Lok® because the blade positively locks in position until the cam-activated lock button is released. A new, heavy-duty tape line is furnished standard (except where noted), making the tape ideal for work under demanding conditions.

Tru-Lok® tapes are available in five case colors that easily stand out in the toolbox, workbench or job site. Recycled case models (Re-Tape™) also available.

- Tough Tip® Blade Protector standard on all 1" and 3/4" (25 and 19 mm) blades (except Re-Tape™)
- Rugged, impact resistant case

-----------	-----------	------------	-----------	---------	-------

\* Regular thickness tape line.

Re-Tape has the same design features as our Tru-Lok® tapes, except the case consists of reground materials from other Starrett cases and it has a regular end-hook (not a Tough Tip®).

Furnished with a new (not recycled) blade.

## Tapes/Key Caddy

### DigiTape® Electronic Measuring Tapes

This new measuring tape is the first accurate and dependable electronic measuring tape that also functions as a standard tape measure. It is available in different lengths, in both the rugged 1" (25 mm) wide blade size and the compact, 3/4" (19 mm) wide blade size.

#### Versatile, Reliable Features and Benefits:

- Large, electronic figures for fast error-free accuracy
- Dual reading through the electronic display or the fully graduated blade
- Rugged, high-impact resistant case
- An internal optical sensor reads bar codes printed directly on the blade
- Furnished with long life Duracell® battery, warranty and easy instructions

#### Action Features with Simple, Push-Button Controls

- Displays inch, feet and inch, and centimeters by 1/16" and 1 mm graduations
- Automatically adds the length of the case to an inside measure
- Zero the reading at any blade position
- Inch/centimeter button for instant conversion
- Freezes a measurement in memory indefinitely, even after the blade is retracted
- Automatic shutoff after five minutes of inactivity, which extends battery life

Part No. 64443, 64639

Catalog Number	EDP Number	Description
D1-25	64443	1" (25 mm) x 25' (8 m) - English & Metric Readout S1 Blade
D34-16	64639	3/4" (19 mm) x 16' (5 m) - English & Metric Readout S1 Blade

### Magnesium Case Tape Measure

This new measuring tape is the first tape to use a 100% magnesium case. This case is lightweight and incredibly strong. The Mag is made 100% in the USA.

#### Heavy Duty Features

- Ergonomic, non-slip ribbed rubber grip is comfortable and easy to handle under any working condition
- A cam-activated positive locking mechanism prevents the blade from slipping
- Heavy duty UV coated blade is 3 times more wear resistant
- Tough-tip stainless steel blade protector reduces blade breakage
- Durable stainless steel belt clip
- Improved reel design and rust-resistant return spring provide smoother action
- New shock absorbing blade bumper cushions the impact of the blade when retracted ensuring a longer tip and blade life

### Steel Long-Line Measuring Tapes

#### No. C530 Series with satin chrome tape lines, English Reading

This hard-wearing satin chrome finish provides a no-glare background making the graduations and figures easy to read. The case is made of steel, covered with tough, durable red vinyl. The long handle and large drum gives extra leverage and smoother operation when reeling in the line.

Catalog No.	EDP No	Length	Blade Graduation Style

### Key Caddy

Heavy-duty chrome-plated die-cast case with extra-long stainless steel chain and large key ring. Returns keys and other articles automatically. Ideal for welders to carry torch ignitors.

Catalog Number	EDP Number	Description
SK1	63135	With Regular Belt Clip

**Chalk Lines/Plumb Lines**

Chalk lines are available in a die-cast reel with a durable enamel finish or molded high-impact ABS black plastic reel. Exclusive slide-action lock and hook ring provide true plumb bob action. Lock releases automatically on rewind. Handle closes flush with the case. Leak resistant tip opens for quick filling with chalk. Supplied without chalk. Top-quality replacement lines on “pop-in” spool. Replacement lines also fit most other chalk reels.

Part No. 63138, 63140

Part No. 66994

Description	Catalog No.	EDP No.
Pressure Point Knife	S010Y	66994

**“Pressure Point” Utility Knife**

New recessed shape of the Pressure Point Knife accommodates the user's thumb, providing maximum leverage. Contoured handle design is more comfortable to use. The nose prevents the blade from pushing up through the handle when pressure is applied. A spring-loaded thumb switch allows easy, smooth adjustment among four cutting positions and retracts the blade. Complete with three blades

**Utility Knives**

These adjustable die-cast models are offered in grey or neon colors that are highly visible on the job or in tool boxes. A handy chrome-plated pocket mini-knife is available, as well as replacement blades with ground cutting edges. BLADES ARE SHARP. USE CAUTION WHEN HANDLING.

**Heavy-Duty Knives**

Adjustable and retractable Knives have a rugged die-cast handle that is specially shaped for a comfortable grip. The design prevents the blade from pushing up through the handle when applying cut pressure. The spring-loaded thumb switch smoothly adjusts the blade to three cutting positions and retracts the blade for safe locking. Blade locks in four positions. Complete with three blades.

**Heavy-Duty Utility Knife and Scraper**

Combination fixed blade utility knife and scraping tool, complete with two blades. Features rugged, die-cast handle with grey enamel finish. Blade notch in handle allows for scraping. Case design prevents blade from pushing up through handle.

**Retractable Mini-Knife**

A handy, pocket-sized adjustable utility knife with key chain. Adjusts to three positions. Complete with two blades. Chrome plated case.

**Heavy-Duty Utility Knife Blade Dispenser**

Safe and convenient; 100 blades in a rugged plastic case that can be wall mounted or stored in a tool box.
